EDUCATION

National University of Singapore

Singapore

PhD Candidate in Architecture (Oral Examination Passed)

August 2022–Present

- Thesis: “Effects of Natural Sounds and Greenery on Soundscape Experience: Dose-Response Relationships, Thresholds, and Exposure Characteristics”
- Thesis advisors: Prof. Tan Puay Yok and Prof. Lau Siu Kit

National University of Singapore

Singapore

Master of Landscape Architecture

August 2019–July 2021

- Dissertation: “A Comparison of Photogrammetry Generated Point Clouds and 360 Degree Panoramic Photos for Semi-immersive Online Teaching of Landscape Architecture”
- Dissertation advisor: Dr. Lin Shengwei Ervine

Tianjin Academy of Fine Arts

Tianjin, China

Bachelor of Environmental Design

August 2015–July 2019

RESEARCH EXPERIENCE

National University of Singapore

Singapore

PhD Researcher

August 2025–March 2026

Under the research project: “An Integrated Multimodal Quantification Method for Designing Landscapes for Well-being”

- Contributed to the soundscape component

National University of Singapore

Singapore

Research Associate

June 2022–December 2024

Under the research project: “Assessment of Urban Ecosystem Services in Residential Neighborhoods in Singapore”

- Led the noise abatement component, including environmental data collection, processing, and analysis

National University of Singapore

Singapore

Research Assistant

December 2020–January 2021

Under the research project: “Research and Design for the Redevelopment of PLAB”

- Modeled site landforms and performed quantitative earthwork analysis

WORK EXPERIENCE

Ramboll Studio Dreiseitl Singapore

Singapore

Graduate Landscape Architect

September 2021–May 2022

- Contributed to the Chengdu Unicorn Island project
